Re: Microbe Guard™ Antimicrobial Program and the Built Green™ Checklist

Northwest Mold Prevention
Kevin Kalberg
PO Box 1427
North Bend, WA 98045

Dear Kevin,

Thank you for becoming a Built Green™ member and for supporting green building. After a review of your mold prevention product Microbe Guard, I have determined that it is possible for this product to qualify for 4 points within the Built Green single-family checklist. A builder who contracts your services may apply for credits in the following areas:

- 2 points under line item 4-7 (Take measures during construction operations to avoid moisture problems later).
- 2 points under line item 4-79 (Extra credit for innovation in health and indoor air quality).

If you have any questions regarding your product or products and how they fit within the Built Green program, please feel free to contact me. Again, thank you for supporting our program, and the best of luck with any current and future projects.

Sincerely,

Aaron Adelstein
Built Green™ Director
